## Three® Lounge Collection

Rev: 10172011

**Product Category:** Lounge

**Certifications:** Greenguard Certified for Children & Schools  
CARB Compliant – Phase I

**LEED Contributions:** Recycled Content  
Regional Materials  
Low Emitting Materials  
Renewable Materials  
FSC Certified Wood

### Program Overview:

Programs Include:	Category	Credit	Contribution
LEED CI LEED NC LEED EB	Materials & Resources	Recycled Content - MR 4.1 & 4.2 10% or 20% recycled content	Post-consumer Pre-consumer % by weight
	Materials & Resources	Regional Materials - MR 5.1 Manufactured within 500 miles of the project location.	Manufactured in: High Point, NC 27260
	Materials & Resources	Certified Wood - MR 7 FSC-Certified wood products used	Certified wood available by request Chain-of-Custody certificate
	Indoor Environmental Quality	Low Emitting Materials EQ 4.5	Greenguard Certified for Children & Schools

### Recycled Content Summary (averaged):

Material	Average % Weight	Recycled Content %	% Post Consumer	% Pre Consumer	Can be recycled?
Steel	25%	25%	12%	13%	Y
Plywood (back)	22%	100%	0%	100%	Y
Other Materials (foam, fabric, strap webbing, other wood)	53%	variable	0%	0%	-

Disclaimer: Numbers may vary based on model and options selected. Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. KI makes conservative assumptions when compiling information to provide the most accurate recycled content calculations possible. This document will be reviewed and updated periodically and is subject to change without notice.

\* Product recyclability is dependent on local programs.

Three® Lounge Collection

Rev: 10172011

## Other Materials Recycled Content Overview:

Material	Recycled Content %	% Post Consumer	% Pre Consumer	Can be recycled?
Corrugated Packaging - From SCS Sources	68%	18%	50.0%	Y

Packaging has large amounts of recycled content – an average of 68% corrugated material, where corrugate is used. Packaging materials, plastic banding and skids can be recycled at the jobsite if requested.

Wherever possible, blanket wrap is used thereby eliminating the packaging waste. These packaging options help to support LEED NC & CI – MR 2.1 and MR 2.2 *Construction Waste Management* or LEED EB - MR Prerequisite 1.1 *Source Reduction and Waste Management*.

## Other Attributes:

- End-of-Life Recycling & Reuse: KI selects materials that can be recycled at the end of a product's use and designs its products so that it can be easily disassembled and separated for local recycling facilities.
- Renewable Materials: KI has approximately 10% soy based material within its foam for the lounge/healthcare lines.
- FSC Certified Wood: Option is available by special request.
- No-Added Urea Formaldehyde – Available upon request.
- Fabrics: Fabric option is available with this product. Fabrics selections may contain between 0%-100% recycled content. Renewable materials in textiles are also available.
