**AerDyn® Guest Chair**

The design of the AerDyn chair makes it the perfect choice for any design scheme. Its lightweight and airy frame is complemented by its distinctive combination of metal, wood and upholstery. With its curved back and arms, the AerDyn chair has a sturdy frame that allows for practical stacking.

AerDyn seating provides limitless flexibility with combinations of color, texture and finishes. Whether you choose a fabric of your own or one of KI's or Pallas® Textiles many graded upholstery choices, AerDyn seating provides a match for every interior. With a choice of metal and wood finishes, the AerDyn chair is the perfect option to blend or transition your designs.

Functional and attractive, contemporary and timeless, the AerDyn chair is a smart choice for guest and side seating.
