

Portico Tables

KI's Portico table offers a unique blend of versatility and value. ■ Regardless of the application, conservative to festive, Portico is the ideal choice by virtue of its clean lines and trim pieces, on the base, that can be color matched to the 15 vinyl table edge colors. ■ Portico relies on the same proven, reliable folding mechanism used on KI's Barron table line. This flexible, high-value table satisfies all applications requiring folding, fixed or flip-top designs, modesty

panels, ganging, wire management, and modular table systems. ■ Bases are available in KI's standard powder-coated colors and chrome. Portico features six edge profiles in wood, self-edge, vinyl or rigid PVC.
