E-Series® Files and Storage

Rev: 08072011

Product Category: Files & Storage

Certifications: Greenguard Certified
CARB Compliant – Phase I

LEED Contributions: Recycled Content
Regional Materials
Low Emitting Materials

Program Overview:

| LEED 2009 | Category | Credit | Contribution |
|-----------------------------------|------------------------------|---|--|
| LEED BD&C LEED ID&C LEED OM | Materials & Resources | Recycled Content - MR 4.1 & 4.2 10% or 20% recycled content | Post-consumer Pre-consumer % by weight = 33.6% |
| | Materials & Resources | Regional Materials - MR 5.1 Manufactured within 500 miles of the project location. | Manufactured in: Pembroke, Ontario Canada K8A 6X7 |
| | Indoor Environmental Quality | Low Emitting Materials EQ 4.5 | <u>LEED CI</u> - Greenguard Certified |

Recycled Content Summary (averaged):

| Material | Average % Weight | Recycled Content % | % Post Consumer | % Pre Consumer | Can be recycled? |
|------------------------|------------------|--------------------|-----------------|----------------|------------------|
| Overall = 33.6% | | | 15.2% | 18.4% | |
| Steel | 97% | 33% | 14.6% | 17.5% | Y |
| Paper (honeycomb) | 2% | 58% | .6% | .6% | - |
| Nylon Interlock | 1% | 25% | 0% | .3% | Y |

Disclaimer: Numbers may vary based on model and options selected. Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. KI makes conservative assumptions when compiling information to provide the most accurate recycled content calculations possible. This document will be reviewed and updated periodically and is subject to change without notice.

* Product Recyclability is dependent on local programs.

Environmental Data Sheet ■

E-Series® Files and Storage

Rev: 08072011

Other Materials Recycled Content Overview:

| Material | Recycled Content % | % Post Consumer | % Pre Consumer | Can be recycled? |
|--|--------------------|-----------------|----------------|------------------|
| Corrugated Packaging - From SCS Sources | 68% | 18% | 50.0% | Y |

Packaging has large amounts of recycled content – an average of 68% corrugated material, where corrugate is used. Packaging materials, plastic banding and skids can be recycled at the jobsite if requested.

Wherever possible, blanket wrap is used thereby eliminating the packaging waste. These packaging options help to support LEED NC & CI – MR 2.1 and MR 2.2 *Construction Waste Management* or LEED EB - MR Prerequisite 1.1 *Source Reduction and Waste Management*.

Greenguard Certification:

- Measurements and results indicated below

| | USGBC | GREENGUARD | GRADE |
|-----------------|------------|------------|-------|
| Formaldehyde | 0.025 ppm | 0.025 ppm | PASS |
| TVOC | 0.25 mg/m3 | 0.25 mg/m3 | PASS |
| Total Aldehydes | 0.05 ppm | 0.05 ppm | PASS |

Other Attributes:

End-of-Life Recycling & Reuse: KI selects materials that can be recycled at the end of a product's use and designs its products so that it can be easily disassembled and separated for local recycling facilities.

Maintenance:

Fabric – Wisk or vacuum regularly. For unusual stains, use a commercial cleaner following manufacturer's instructions.

Vinyl/Polyurethane – Wipe with damp cloth, moistened with a mild detergent solution. For unusual stains, use a commercial nylon cleaner, following manufacturer's instructions.

Other Surfaces – Wipe with soft cloth, moistened in a mild solution. Dry and buff lightly with a dry cloth.
