

# ValueLite Folding Table

## Safety and Care Instructions

Congratulations on your KI purchase. By following the instructions below, your new KI table should provide you with years of service and enjoyment.

### Safety

Diagonal braces must always be in locked position during use. If storing tables flat, do not stack more than ten tables high. Avoid placing a direct heat source on or near the table surface unless using a heat barrier.

### Cleaning and Care

The polyethylene tabletop is stain- and solvent-resistant. To clean, use a mild soap and a soft-bristled brush. Abrasive cleaning materials may scratch the plastic and are not recommended. Repair scratches or rust spots on the metal frame by sanding the affected area lightly; using a rust-preventative spray primer; and finally, spraying with a high-gloss spray enamel paint.
